

WET SEASON P SUPPLEMENTATION THE NEXT GENERATION

- ✓ Offers 5 grams of highly available P per 100 gram intake
- ✓ Offers balanced salt, calcium and trace mineral ratios
- ✓ Has enough NPN (20% protein), from a slow-release source, that pasture intake is stimulated and appetite encouraged
- ✓ Is absolutely water-proof (can sit under water without deteriorating)
- ✓ Presents in a granule, loose-lick form that encourages easy intake
- ✓ Can be put out at the end of the dry, for the entire wet season, without worry from urea toxicity

Science aside, we all know the benefits of supplementing phosphorous to cattle when soil P is low. Breeders and weaners especially suffer if they never see phosphorous. A boost in conception rates, calves weaned and weaner liveweight all add up to more animals in the yard at each muster.

Now working with the science, we also know that a small amount of NPN will further stimulate appetite and maintain pasture intake into the end of the wet-season. **FibrePro™ WS 5/20** is designed with science in mind, but also recognises the practical problems facing wet-season supplementation.

FibrePro™ WS 5/20 contains biuret. Biuret is a slow-release poly-urea which acts as an NPN source. The benefits of biuret are safety and efficiency. Safety because urea toxicity is not a concern and efficiency because the rumen bugs get more time to utilise it.

WeatherPro

FibrePro™
Protected Animal Performance

FibrePro™ WS 5/20 is part of the WeatherPro product range. WeatherPro technology is unique to Performance Feeds. Each mineral particle is coated in a water-repellent layer. This layer is degradable in the rumen, but protects the particle from rain. As a bonus, the WeatherPro coating masks the bitterness of some minerals. The larger particle size makes

sure that WeatherPro minerals don't separate, keeping the trace minerals in the mix right to the end of the wet season. WeatherPro mineral and protein supplements have been proven as a consistent performer. When combined with a strategic dry season supplementation program using Anipro, WeatherPro fills in the difficult wet-season gap.

FibrePro™ WS 5/20 Supplement for Cattle

**5% Phosphorous
20% Crude Protein**

**A highly weatherproof,
phosphorous lick,
fortified with protein,
minerals and vitamins.
For all classes of cattle
on wet season pasture.
Contains slow release
poly-urea.**

Guaranteed Analysis (As-Fed)

Crude Protein, min.	%	20.00
Equivalent Crude protein, min.	%	20.00
Urea (as poly-urea), max.	%	8.00
Calcium (Ca), min.	%	17.00
Phosphorus (P), min.	%	5.00
Salt (NaCl), max.	%	20.00
Sodium (Na), min.	%	8.00
Sulphur (S), min.	%	0.70
Copper (Cu), min.	mg/kg	660.00
Cobalt (Co), min.	mg/kg	26.00
Selenium (Se), min.	mg/kg	18.00
Iodine (I), min.	mg/kg	75.00
Zinc (Zn), min.	mg/kg	2500.0
Manganese (Mn), min.	mg/kg	1800.0
Vitamin A	IU/kg	36,000.00
Vitamin E	mg/kg	285.00

Ingredients:

Calcium carbonate, Monocalcium phosphate, (Kynophos™, Salt, Poly-urea (biuret), vegetable protein meal, Molasses, Petrolatum, Zinc sulphate, Manganese sulphate, Elemental sulphur, Copper sulphate, sodium saccharine, Sodium selenite, Vitamin E acetate, Vitamin A (Retinol), Potassium iodide, Cobalt carbonate.

Feeding Directions:

Provide free-choice in secure, well-drained containers located near known feeding and/or watering points. Average daily intakes typically vary from 80-150 g/hd/d and will fluctuate in accordance with animal size, dietary quality and production status.

Animal Performance:

Alterations to the base diet, environmental conditions, health status and general animal husbandry will affect animal performance achieved by using this product.

Caution:

Follow label directions. The concurrent use of supplements /feeds containing selenium should be avoided.

Contains protein as non-protein nitrogen. Care must be taken when supplementing hungry or non-adapted stock. Do not feed to equines or other non-target species.

Does not contain Restricted Animal Material (RAM)

Net Weight: 20 Kg

Manufacturing & Distribution:

Manufactured by Performance Feeds Pty Ltd
ABN 49 061 399 675
PO Box 25, Kingsthorpe QLD 4400
